Average daily circulation in city of Salem, 2220; average daily circulation by mail 1957, total average daily circulation 4177.

This circulation statement is printed because the publishers of the Capital Journal believe that businessmen have a right to know what they are paying for when they buy advertising space in a newspaper. We make no circulation claims—simply a statement of circulation facts, which any advertiser is at liberty to investigate for himself. Our mailing lists, carrier lists and press run figures are at his service. We have no circulation secrets—because we have no cause to be ashamed of our subscription list, and no good reason for misrepresenting it in any respect.

The Capital Journal believes that it has by far the largest circulation of any newspaper attempting to cover this field—and it is a legitimate subscription not padded by fake voting contests or wholesale distribution of premiums. Furthermore, 95 per cent of this circulation is in Marion and Polk counties, directly tributary to the City of Salem.

## SALEM POLICE END BUSY YEAR MAKING 502 ARRESTS IN 1915

Total of \$2298.74 Collected In Fines—842 Days Served In City Jail

The report of Chief of Police Welsh which was submitted to the city council last month shows that 502 arrests were made during the year 1915 and \$2,298.74 was collected in fines. A total of 842 days in jail were served by the various offenders who faced Judge Elgin on the morning after. During the year 1,752 meals were served to prisoners at a cost of \$350.

Beds were provided for 400 sleepers in the basement cell room, beds without bed linen, a bed sure but Night Sergeant Al Poland, who is also night clerk of the city marshal's hotel, reports that not a single one of the lodgers complained of the service which is considered an excellent commendation of the city's hospitality.

Two prisoners who were arrested by the city police in the past year are now serving terms in the penitentiary and five boys who were arrested by the city police are now serving time in the boys' training school and one girl was committed to the girls industrial school. Bicycle thieves made away with 101 bicycles in 1915 and 60 of these were recovered and returned to the rightful owners.

Police Matron Myra Shank met six trains daily during the past year unless on official business calls and placed 29 girls in homes. From her own purse she assisted 23 girls and women whom she considered in need and 441 were assisted and directed during her year as police matron. She also made 631 official calls.

Chief of Police Welsh also succeeded in his efforts to secure a police light to call the officers as there are no patrol boxes in the city and no officers are available at the station for instant call. At the meeting of the city council last night bids were submitted for 60 watt lights, one to be placed at the intersection of Liberty and State streets and the other at the intersection of Commercial and Court streets. The bids received were as follows: P. L. & P. company for materials and installation \$135; George Pettigall \$119; E. S. Barton \$135.

The lights will be controlled by a switch in the office of the city marshal and when a hurry call is sent in one or both of the lights may be turned on to send an officer to a telephone to call up the station.

## LARRY STOMACH JOY IN YOUR VEST POCKET

Daniel J. Fry Has Such Faith In This Dyspepsia Remedy That He Guarantees It.

One of the greatest successes in the sale of medicine has been achieved by Mio-na, the standard dyspepsia remedy, and its sale is increasing so rapidly that Daniel J. Fry, the popular druggist, has had work to keep a stock on hand. It is very popular with bankers, ministers, lawyers and others whose business or profession keeps them closely confined, while those who have brought on indigestion through irregular eating, worry, or other causes, have found relief in this reliable remedy.

Mio-na comes in tablet form and is sold in a metal box especially designed for convenience in carrying the medicine in the pocket or purse. It is pleasant to take, gives quick relief and should have any case, no matter of how long a standing. This remedy has been so uniformly successful that Daniel J. Fry will in future refund the money if it should not prove entirely satisfactory. No other dyspepsia medicine ever had a large enough percentage of cures so that it could be sold in this manner. A guarantee like this speaks volumes for the merit of the remedy.

There is no time like the present to do a thing that ought to be done. If any one has dyspepsia, today is the best time to begin curing it.

(Capital Journal Special Service.) Claxtar, Jan. 4.—The I. D. Basy house was burned to the ground at a late hour Saturday night.

Kaiser Bottom halted the New Year with a largely attended watch party at Kaiser school house.

Hayesville bade farewell to the old year with a fine oyster supper the proceeds of which went to swell the fund for the new church.

Chemawa school surpassed everything she had previously accomplished in the way of noise. Her siren whistle chilled the blood of hundreds who listened. Some suggested that it was the dying salute of Demon Rum. Whatever it was, it caused all of the other neighbors to sit up and take notice.

Quinaly celebrated the passing of the old year and the advent of the new with one of their big oyster suppers at Buena Crest school.

A fine program was staged for the occasion, a feature of which was the excellent literary paper, Buena Crest Buzle, containing many local bits which caused much merriment.
